SPECIALISTS IN FLEET VEHICLE MANAGEMENT SERVICES & SOLUTIONS

# Empowering Logistics and Rail Excellence

**Talis Logistics** has emerged as a pivotal enabler of integrated logistics, rail, and freight forwarding in Southern Africa. Rooted in entrepreneurial innovation and developmental purpose, the company advances a philosophy that logistics is not merely the movement of goods, but the construction of the connective tissue of economies—facilitating trade, enhancing competitiveness, and unlocking inclusive growth.

**Situated in Sandton, Johannesburg—the financial epicentre of Africa**—Talis Logistics benefits from its proximity to regional decision-makers, financial institutions, and transport corridors. This location provides both symbolic and practical leverage: symbolically, it situates the company at the nexus of continental commerce; practically, it ensures seamless integration with rail, road, and cross-border freight networks.

As a subsidiary of the **Talis Group**, Talis Logistics derives resilience and strategic breadth from a diversified corporate portfolio spanning property, ICT, finance, media, mining, agriculture, and infrastructure development. This multi-sectoral base enriches its logistics expertise with insights from adjacent industries, creating adaptive capacity in an increasingly complex and globalised supply chain landscape.

In this way, Talis Logistics positions itself not simply as a service provider, but as a **systems architect of trade facilitation and regional integration**, aligning commercial success with developmental imperatives across Southern Africa.

# Our Leadership

The leadership of **Talis Logistics** reflects a blend of entrepreneurial vision, technical expertise, financial discipline, and governance integrity. Together, the Board and Secretariat provide the intellectual capital and strategic oversight necessary to drive logistics innovation and sustainable growth across Southern Africa.

- **Tebogo Mogashoa – Director**

**Tebogo holds a Bachelor of Science in Electrical Engineering (B.Sc Eng, Electrical).** As an entrepreneur and strategic investor, he has established and scaled enterprises across logistics, property, agriculture, and ICT. His engineering background equips him with strong analytical and problem-solving capabilities, while his commercial experience positions him as a leader in **infrastructure development, freight corridors, and sustainable investment models.**

- **Henk Klopper – Director**

Henk is a qualified **Chartered Accountant (CA(SA))**, bringing extensive expertise in financial management, strategic structuring, and corporate growth. His career reflects a proven ability to design and execute strategies that ensure **operational efficiency, financial resilience, and governance compliance.** As a director, he provides the financial stewardship and analytical rigour essential for large-scale logistics and rail operations.

- **Ugashnee Naidu – Director**

Ugashnee holds a **Postgraduate Diploma in Business Management (PDBM)** with a focus on strategy and governance. Her academic grounding complements her expertise in **organisational strategy, brand development and corporate governance, and executive-level project management.** She plays a key role in aligning corporate vision with operational delivery while ensuring stakeholder engagement and governance standards are upheld.

- **Arlington T. Mutazu – Company Secretary**

Arlington is a qualified **Chartered Secretary** and holds a **Masters of Law, Corporate Law degree.** With advanced training in **corporate governance and risk management,** he ensures that Talis Logistics maintains **regulatory compliance, transparency, and accountability.** His role as Company Secretary anchors the organisation's governance frameworks and reinforces stakeholder trust.

## TALIS LOGISTICS

---

Our **service portfolio** reflects a deliberately holistic approach to the logistics value chain, ensuring that every link contributes to efficiency, sustainability, and developmental impact.

- **Freight Forwarding and Trade Facilitation** serves as a bridge across borders, integrating customs clearance, multimodal routing, and compliance frameworks to enable seamless global and regional connectivity. By embedding international standards with local agility, this function transforms borders from barriers into gateways of opportunity.
- **Rail Logistics** delivers efficient and sustainable corridor-based solutions through block-train operations that reduce costs, enhance reliability, and significantly minimise environmental footprint. In doing so, Talis Logistics positions rail as the backbone of a low-carbon, future-ready supply chain.

**Talis Logistics is more than an operator**—it is a strategic partner in development. Our growth trajectory is deliberately aligned with **national priorities and continental frameworks**. In practice, this means facilitating industrialisation, enabling intra-African trade, and embedding sustainability into the very architecture of economic activity.

Our operations are consciously designed around the principles of **ESG stewardship**: advancing low-carbon logistics through innovation, fostering inclusive job creation and skills transfer, and upholding ethical corporate governance. This ensures that value creation is not only financial but also social and environmental.

In essence, *Talis Logistics represents a synthesis of vision, technology, and socio-economic purpose*. We do not view logistics as a narrow technical service, but as a strategic lever for competitiveness, resilience, and transformation. By coupling global best practices with deep regional insight, we aspire to **redefine the future of trade and mobility in Africa**—creating logistics frameworks that are not only efficient and sustainable, but also inclusive and transformative.

TALIS LOGISTICS

# Commodity Logistics Expertise

## Commodity Logistics Expertise

At **Talis Logistics**, our experience extends across a diverse portfolio of commodities, reflecting both our operational capacity and our strategic role in enabling African trade.

## Sulphur Supply Chain

In partnership with **Reload**, Talis Logistics manages the seamless movement of sulphur from **bulk shipments at the Port of Richards Bay** through to the **Copperbelt in Zambia and the DRC**. The process integrates bulk shipping, **bagging operations at port**, and secure inland transportation, ensuring a **reliable and efficient supply chain** for industries dependent on sulphur. This partnership leverages Reload's trading expertise with our logistics capabilities, delivering **end-to-end solutions** that are cost-effective and compliant with international standards.

## Copper Movements

Talis Logistics provides end-to-end solutions for **copper producers and traders**, ensuring seamless movement from origin to export markets. A cornerstone of this service is the **rail transportation of copper from Ndola to the Port of Durban**, a critical corridor that connects Zambia's Copperbelt to global buyers. By managing **rail capacity, corridor coordination, and port scheduling**, we ensure every shipment is handled with **efficiency, scalability, and reliability**.

Through our partnership with Reload, we complement their trading expertise with our **operational strength in logistics execution**, creating a streamlined supply chain that delivers value to both producers and international clients. In this way, Talis Logistics positions itself as the **primary enabler of copper flows**, while ensuring Southern Africa's resources are moved competitively and sustainably to world markets.

## Coal Transport

Our track record includes the successful movement of **coal from Hwange (Zimbabwe) to ArcelorMittal**, demonstrating our ability to deliver bulk commodities for some of the world's largest industrial players. This experience highlights our strength in **cross-border coordination, bulk rail logistics, and client-specific service delivery**.

DRIVING YOUR  
BUSINESS' VISION

# Rail That Moves More Than Cargo — It Moves Economies

The growth of extractive and productive industries across Southern Africa depends on reliable, efficient, and sustainable logistics systems. Rail remains the backbone of bulk transportation, enabling mines, agricultural producers, and energy suppliers to move high volumes of commodities at competitive cost. Within this environment, Talis Logistics' rail division serves as a strategic partner—championing solutions that link production centres to domestic markets, ports, and global value chains.

## Our Services

### 1 Strategic Asset Management

We acquire, manage, and deploy locomotives and wagons in line with the operational demands of **mines, agro-industrial enterprises, and fuel distributors**. This ensures reliable capacity to move bulk products—such as coal, chrome, fertilisers, fuels, and timber—across key corridors.

### 2 Customised Fleet Solutions

Talis Logistics provides **fit-for-purpose rail equipment**, including locomotives, flatbeds, hoppers, and block-train formations. These solutions are designed specifically for bulk commodities, helping mines and producers reduce turnaround times, improve throughput, and maintain predictable supply chains.

### 3 Cross-Border Corridor Coordination

Our expertise extends to **international corridors**, ensuring that mineral and agricultural exports reach ports efficiently. We manage cross-border compliance, harmonised scheduling, and integration with inland and port terminals to remove bottlenecks and accelerate trade flows.

### 4 Innovative Repurposing Initiatives

We repurpose and modernise underutilised rolling stock to create cost-effective and sustainable solutions for industries with high-volume demand. This innovation lowers barriers to entry for producers while supporting circular use of capital assets.

### 5 Sustainability in Rail

Mining and agricultural industries face growing pressure to reduce emissions. By prioritising rail over road, our clients achieve **lower carbon footprints**, while we embed **ESG-aligned practices** such as energy-efficient technologies, inclusive job creation, and ethical governance into all operations.

## Our Vision

Talis Logistics envisions a future where **Africa's mines, farms, and energy producers are seamlessly linked to markets** through sustainable rail systems. By investing in technology, forging alliances with producers, and maintaining a development-focused philosophy, we are poised to lead the transformation of regional supply chains.

Through integration with our **fleet and warehousing services**, Talis Logistics offers mines and producers an **end-to-end logistics solution**: from pit and plant, through corridors, to port. In doing so, we are not only providing a service but enabling **industrialisation, competitiveness, and inclusive growth** across Southern Africa.

# Warehousing & Supply Chain Solutions

At **Talis Logistics**, we deliver end-to-end **import, export, handling, and specialised storage solutions** that enhance operational efficiency and reduce costs. By integrating cutting-edge technology—from cargo visibility and real-time monitoring to advanced security protocols—we ensure that every aspect of your supply chain is optimised to meet the demands of today's dynamic Sub-Saharan market.

## Our Services

### Tailored Storage & Handling Solutions

We provide storage and handling facilities designed to accommodate a wide range of commodities, reinforced by internationally recognised risk management practices and operational excellence.

- Certified weighing and sampling for accuracy and compliance.
- Rigorous quality control: inspection, brushing, cleaning, fumigation, and re-bagging.
- Comprehensive pre-shipment inspections for cargo, containers, and storage facilities to guarantee integrity.

### Efficient Transport & Distribution

Talis Logistics ensures goods move seamlessly from origin to destination. Our **transport network** is supported by advanced stock monitoring and management systems, providing real-time tracking and collateral management capabilities trusted by financial institutions.

### Inbound & Outbound Logistics

- **Inbound Logistics:** Receiving, inspection, weighing, and verification are executed with precision. Advanced registration and barcoding systems streamline cargo entry into warehouses.
- **Outbound Logistics:** Accuracy is maintained through pre-dispatch checks and real-time stock management, ensuring every shipment transitions smoothly to its next stage.

### Unlock the Potential of Your Supply Chain

With a commitment to **innovation, reliability, and operational excellence**, Talis Logistics is your trusted partner for warehousing and logistics solutions. Combining **deep market expertise** with advanced technology, we deliver **tailored services** that support business growth and drive success across Sub-Saharan Africa.

# ESG at Talis Logistics

## Embedding Sustainability, Empowerment, and Integrity into Logistics

At Talis Logistics, Environmental, Social, and Governance (ESG) principles are not peripheral—they are **central to our business model**. We embed sustainability into every dimension of our operations, ensuring that logistics becomes not only a driver of trade but also a catalyst for inclusive, ethical, and sustainable development.

### Environmental Stewardship

We recognise the vital role logistics plays in addressing climate and environmental challenges. Our **rail-first approach**, supported by purpose-engineered wagons, energy-efficient fleets, and advanced digital optimisation tools, significantly reduces carbon intensity while maximising resource utilisation. We also invest in **environmentally resilient warehousing practices**, ensuring that growth is balanced with the responsibility to protect natural ecosystems for future generations.

### Social Empowerment

We believe logistics must actively shape societies for the better. Talis Logistics invests in **job creation, youth development, and technical training programmes** that equip future-ready skills in rail, warehousing, and freight forwarding. Through **inclusive procurement**, we empower small and medium enterprises, while our community initiatives in **education and health** ensure our economic footprint delivers lasting social transformation.

### Governance Excellence

Our operations are underpinned by a culture of **transparency, accountability, and integrity**. We maintain robust risk management frameworks, clear decision-making processes, and uncompromising ethical standards. With a **zero-tolerance stance on corruption**, we safeguard stakeholder trust and position governance as a foundation for **sustained value creation and credibility**.

### Our ESG Proposition

For Talis Logistics, ESG is not a compliance exercise—it is **how we define success**. By uniting **environmental care, social progress, and governance integrity**, we are creating a logistics ecosystem that is **competitive, resilient, and socially responsible**. In doing so, we position logistics as more than a service—it becomes a **force for sustainable development in Africa**.

# Why Partner with Talis Logistics?

At **Talis Logistics**, partnership is not a transaction — it is a **strategic alliance for shared growth and long-term value creation**. Our clients choose us because we deliver logistics solutions that combine specialised infrastructure, advanced technology, and a **sustainability mindset** with the trust and reliability of a company deeply embedded in Southern Africa's economic fabric.

## What Sets Us Apart

- **End-to-End Solutions**  
From freight forwarding and specialised wagons to rail logistics, warehousing, and distribution, we offer a **single point of accountability** for even the most complex supply chains.
- **Specialised Expertise**  
With deep knowledge of **bulk commodities, industrial goods, and cross-border trade**, our solutions are both **fit-for-purpose and adaptable across sectors**.
- **Innovation and Transparency**  
Through **digital tracking, analytics, and real-time dashboards**, we give clients unmatched visibility, operational control, and confidence.
- **Sustainability and Empowerment**  
Every partnership advances **environmental responsibility, social empowerment, and governance excellence**. Our clients benefit from logistics that are not only profitable but also **responsible and future-focused**.
- **Strength of the Talis Group**  
As part of a **diversified corporate group**, we provide financial stability, cross-sector synergies, and investment capacity — advantages that few logistics firms in the region can match.

## Our Promise:

*"When you partner with Talis Logistics, you gain more than logistics. You gain a partner committed to moving goods efficiently, empowering communities, and reshaping the future of African trade."*
